

YBX-800T/600T Cordless Systemwrenches

NEW!

Yokota

Tools for professionals

The YBX-800T and YBX-600T cordless systemwrenches, are electronically controlled battery impulse wrenches with integrated angle encoder for highly accurate torque tolerances. The shut-off is calculated over several impulses. The controller is integrated and enables counting, Poka Yoke

YBX-800T/600T Cordless Systemwrenches

Features YBX-800T / 600T

- Very high accuracy
- Electronically controlled shut-off over several impulses
- OK/NOK LED on display
- Counting function
- No kick-back
- Maintenance free motor (brushless)
- Lithium-ion battery, sliding model
- Perfectly balanced
- Compact lightweight
- Low vibration and noise levels

Integrated angle encoder

Lithium-Ion battery

Well-balanced

Lightweight

Left rotation

Torque OK

Torque NOK
